

Climate Change Tools for Adapting Management Strategies Workshop
2010 National Military Fish and Wildlife Association Conference
Monday, 22 March 2010 (0800-1200)

This workshop will provide information on tools that may inform natural resource managers as they work to adapt management strategies in light of climate change impacts. Presenters will provide a summary of the tools, and discuss how and when to appropriately use each.

- 8:00-8:15 Welcome and Introductory Remarks
- **Peter Boice**, DoD Deputy Director, Natural Resources
- 8:15-8:45 Overview and Setting the Stage
- **Bruce Stein**, National Wildlife Federation, Associate Director, Wildlife Conservation and Global Warming
Climate Change Vulnerability Assessments
- 8:45-9:35 Session I Presentations
- **Mary Klein**, NatureServe, Chief Executive Officer
Element Occurrence Web Service and Species At-Risk Screening
 - **Bill Goran**, U.S. Army Engineer Research and Development Center, Construction Engineering Research Laboratory
DoD Workshop on Climate Change Impacts and Research Needs for Alaska and other Cold Regions
- 9:35-9:55 Bio-break
- 9:55-10:45 Session II Presentations
- **Eileen Regan**, AQUA TERRA Consultants
BASINS 4.0 Climate Assessment Tool (CAT)
 - **Bruce Young**, NatureServe, Director of Species Science
Climate Change Vulnerability Index and TNC Climate Wizard, identifying species most at-risk to climate change
- 10:45-11:45 Opportunities to view posters and displays, interact with speakers
- 11:45-12:00 Closing
- **Peter Boice**, DoD Deputy Director, Natural Resources

Staff Support: **Alison Dalsimer** and **Derrick Golla**, Booz Allen Hamilton
